Sr No.	Title	Authors	Source	PDF/Drive Link	Assigned To	Status
1	Effectiveness of Picture based instruction in teaching daily living skills to children with intellectual disabilities	Mr. Bhupendra Singh		chrome-extension://efaidnbmnnnibpcajpcglclefindmkaj/https://www.icrt.org/papers/IJCRT2411079.pdf	Manasvi	Completed
2	Using Picture-Based Task-Analytic Instruction to Teach Students with Moderate Intellectual Disability to Email Peers without Disabilities	Victoria K. Benson, M.Ed, BCBA Shawnee Y. Wakeman, Ph.D. Charles L. Wood, Ph.D., BCBA-D University of North Carolina at Charlotte Reem Muhanib, Ph.D., BCBA, Texas State University		chrome-extension://efaidnbmnnnibpcajpcglclefindmkaj/https://files.eric.ed.gov/fulltext/EJ1302875.pdf	Manasvi	Completed
3	Research Article Enhancing the Cognitive and Learning Skills of Children with Intellectual Disability through Physical Activity and Edutainment Games	Amal Dandashi, Abdel Ghani Karkar, Sawwan Saad, Zaira Bathoomi, Jihad Al-Jaani, and Abdulmotaleb El Saddik		https://www.scribd.com/document/7049854	Manasvi	Completed
4	Pictogram room augmented reality technology games improve body knowledge, imitation, and joint attention skills in autistic children with intellectual disability	Patricia Pérez-Fuster, Gerardo Henríquez, Lucía Vera, Jacqueline Nadel, Charles Tijus, Arturo López-Fernández, Maria Stancheva, Yana Kozareva, Alia Andreava, Seher Büyüksöylü, Ahmet Avcı, Emrah Koçak, Jimmie Leppink		https://pmc.ncbi.nlm.nih.gov/articles/PMC12	Manasvi	On Going

T1: Intellectual Disabilities T2: Assistive Learning Tech T3: Image Based Learning T4: Speech Recognition

We've been deep in the literature lately, going through research papers across our key themes — intellectual disabilities, assistive learning tech, image-based learning, and speech recognition. Right now, we're really digging into the methodology of each study, trying to understand how different researchers designed their interventions and what approaches actually worked.

So far, we've wrapped up three papers and we're halfway through the fourth one. It's been interesting to see how the methodology varies from study to study, and we're already spotting some patterns (and a few gaps) that we think will be super useful for shaping our own direction.
